

Contract Analysis Report

Project: Contract Data Parts 1 and 2

Generated: 2026-01-14T14:30:49.730375

Source File: Contract Data Parts 1 and 2.pdf

1. Executive Summary

This report provides a structured analysis of the uploaded contract. The system extracted programme-critical NEC provisions and evaluated document completeness.

Document Classification:

Type: template

Template Detected: True

Completeness Score: 0.0%

2. Contract Completeness Assessment

Clause	Title	Status	Extracted Value
3.1	Starting Date	missing	—
3.2	Possession Date(s)	missing	—
3.3	Completion Date	missing	—
3.5	Submission of First Programme	missing	—
3.6	Submission of Revised Programme	missing	—
3.7	Delay Damages	missing	—
4.1	Defects Date	missing	—
4.2	Defect Correction Period	missing	—
4.3	Landscaping Maintenance Period	missing	—
5.2	Assessment Interval	missing	—
5.3	Payment Period	missing	—
5.5	Retention Percentage	missing	—
5.6	Bond Amount	missing	—
6.1	Weather Recording Location	missing	—
6.2	Weather Measurement Data	missing	—
6.3	Weather Historical Records Source	missing	—

3. Programme-Critical Contract Dates

Field	Value
Starting Date	4 3.2 Possession date.....
Completion Date	
Possession Dates	□
First Programme Submission	
Revised Programme Interval	
Delay Damages	

4. Defects and Testing

Provision	Value
Defects Date	
Defect Correction Period	
Landscape Maintenance Period	

5. Payment Terms

Provision	Value
Assessment Interval	
Payment Period	
Retention Percentage	
Bond Amount	

6. Weather Data

Provision	Value
Recording Location	
Measurement Data	
Historical Records Source	

7. Scope, Constraints, & Milestones

Scope Items

No scope items extracted.

Constraints

No constraints extracted.

Milestones

No milestones extracted.

8. Risk Assessment Summary

Based on extracted clauses, the contract currently lacks sufficient detail to support NEC programming requirements. Missing or blank fields introduce significant commercial and programme delivery risks.

9. Recommendations

- Populate all mandatory NEC dates (starting, completion, possession).
- Confirm programme submission and revision intervals.
- Provide weather data in compliance with NEC Clause 60.1(13).
- Complete all payment and defect-related fields.
- Re-run analysis when the complete contract is available.
